## COVID-19: Treasury Secretary Announced Extension of Deadline

The Treasury Secretary just announced that the deadline for filing tax returns, originally due April 15th, has now been extended to July 15th.

This new deadline is in alignment with the previously reported extension of payments. At this time, we are waiting for the IRS to issue official guidance on some specific questions we still have. Once that guidance has been released, we will send updates along with any state updates that become available.

To All Rosen Clients:

Although the deadline has been postponed, please continue to send your tax documents electronically to us. Even with an extended deadline, we are still working hard to complete your returns.

Stay safe and healthy.

Rosen & Associates, LLP
